Who is eligible to receive protective services?

- A resident of the Commonwealth
- An adult between 18 and 59 years of age with a physical or mental impairment that **substantially limits one or more major life activities**
- An adult who needs the assistance of another person to obtain protective services in order to prevent imminent risk to person or property

APS Process

pennsylvania
DEPARTMENT OF HUMAN SERVICES

Call the Statewide Protective Services Hotline (1-800-490-8505) to report an allegation of suspected abuse, neglect, exploitation or abandonment of an individual between 18 and 59 years of age with a physical or mental impairment

Mandated Reporters must also contact **law enforcement and DHS** for cases of suspicious death, serious injury, serious bodily injury or sexual abuse.

Protective Services Hotline is answered by local Area Agency on Aging (AAA) who completes a Report of Need (RON) and documents the report in the Social Assistance Management System (SAMS)

APS Process

The AAA notifies Liberty Intake staff via email that a RON is in SAMS.

Liberty Intake staff notify all appropriate licensing agencies of the Report of Need

Liberty Intake Staff evaluate information in the RON to determine if individual meets eligibility criteria and classify the case as either "Priority, Non-priority, or No Need"

Cases determined to be "No Need" will be reviewed by an APS Supervisor and DHS and may be referred for other services. Program Offices are also notified of all No Needs.

All cases classified as “Priority” or “Non-priority” are assigned to an APS caseworker for investigation. Investigations must be initiated within 24 hours for “Priority” cases and within 72 hours for “Non-priority” cases.

APS Caseworker initiates investigation within required timeframes, assesses risk, determines if individual is at imminent risk, and mitigates risk if necessary, by providing protective services.

If case is substantiated, APS may provide or arrange for protective services intended to ensure the adult's immediate safety and well-being.

Protective services provided must be in the least restrictive and in the most integrated setting.

An adult can only receive protective services voluntarily. Protective services may not be provided to an adult who refuses consent or who, having previously consented, withdraws the consent, unless the services are ordered by a court.

- Priority: Priority reports require immediate attention because specific details in the report indicate the possibility that the adult reported to need protective services **is at imminent risk of death or serious injury or serious bodily injury**. The investigation shall be initiated immediately for a priority report.
- Non-priority: A non-priority report does not appropriately fall within the priority category and, therefore, does not require immediate attention by the agency. These investigations must be initiated within 72 hours.

- No need for protective services: A report shall be placed in this category when the person reported to be in need of protective services meets either of the following criteria:
 - (a) has the capacity to perform or obtain, without help, services necessary to maintain physical or mental health**
 - (b) is not at imminent risk or danger to his person or property**

Reporting Guidelines

- DHS' intention is not to discourage appropriate reporting, but rather to encourage providers to exercise judgement and discretion in deciding what is and is not reportable, by using these guidelines, and contacting APS for help/guidance, if needed
- Evaluate all incidents in terms of the statutory definitions in the APS law, in order to determine whether or not a specific incident is reportable
- When deciding whether or not to report abuse that occurred years ago, determine if there is continued contact between victim and alleged abuser, and the nature, frequency, and extent of continued contact

Reporting “Do’s” and “Don’t’s”

- Call 911 **immediately** for any life-threatening emergencies, prior to calling APS
- Call crisis intervention for any mental health emergencies requiring immediate attention
- Follow up with your supervisor or administrator to ensure that APS has been contacted—reporting upward does not end your reporting responsibility
- Do **not** wait to call APS pending completion of the certified investigation—call immediately if you have “reasonable cause” to suspect abuse, neglect, etc.
