

ISAC Provider Oversight Subcommittee

Mission and Objectives

Mission

The mission of the Provider Oversight Subcommittee of the Information Sharing and Advisory Committee (ISAC) is to evaluate, discuss and provide recommendations to the Department related to performance and quality improvement in agencies providing home and community-based services to people with intellectual disabilities and autism.

Objectives of Subcommittee

The objectives of the subcommittee are to engage stakeholders to:

- Identify key performance measures for analysis of provider performance and accountability.
- Review and discuss findings and recommendations for improvement based on the analysis of provider performance data.
- Determine quality management priorities related to provider performance, identify and adopt improvement strategies and choose performance measures to evaluate the results of implemented change on improving the lives of individuals with disabilities.
- Provide quality improvement recommendations to the ISAC for adoption into the *Everyday Lives* strategies.
