CORE ELEMENTS OF A POC

Please note the following Core Elements must be incorporated into your submitted plan of correction. These elements are:

- How corrective actions will be accomplished for those individuals identified in the deficiency statements.

- How the facility will identify other residents having the potential to be affected by the same deficient practice.

- What corrective measure or systemic changes will be put into place to ensure that the deficient practice is being corrected and will not recur. This should go beyond what you typically do because that failed.

- How the facility will monitor its corrective actions to ensure that the deficient practice is being corrected and will not recur. Specifically what process will be used and how long with the monitoring continue. If it will be ongoing monitoring as a part of the corrective actions, please state that or give an end date…ie…for the next 6 months, weekly for the next 3 month, ect.

- Identify, by position, who will be responsible for monitoring the corrective actions.

- Identify how substantial compliance will be measured.
